FOREWORD

Mountain climbers recognise that the most precarious place is close to the summit. Ireland finds itself amongst the global leaders in horse racing, as the second biggest producer of thoroughbreds in the world (by value, surpassed only by the US). This is a direct result of decades of Government support which played to this island's undoubted suitability and capability for horse production.

Horse Racing Ireland (HRI) has long signposted the climate and soils as factors in the success of Ireland, with the skills of our people celebrated all over the world. None of these factors are guaranteed, with climate change evident constantly, with increasing urbanisation and with lifestyle choices ever-changing. As with the mountain climbers, there is need for extreme vigilance, unambiguous communication and concerted effort or progress may quickly be reversed.

This document captures the ambition that HRI has for the continued development of the industry, which generates Ireland's fifth biggest agricultural export. An update to the Deloitte report in 2023 showed incontrovertibly that the industry had navigated the turbulent Covid years and emerged bigger, more valuable (€2.46 billion in economic impact, a €550m uplift since 2017) and ever more focused on our social responsibility to our people, our horses and our environment.

The trust placed in HRI by the people of Ireland, through their public representatives, is precious. It is vitally important for our industry to share that the annual State investment yields a 35-fold return in economic activity. HRI intends to continue delivering this return on Government investment by growing the industry's economic impact to €3 billion by 2028.

This plan specifies two objectives – to Nurture Success and to Inspire Participation. This says quality first, and the quality of the product is tested every day on the racecourses and in the Sales Rings. The quality is undoubted and the result of the efforts of our dedicated workforce, with nearly 10,000 people involved in the day-to-day care of the horses, and more than 30,000 gaining direct or indirect employment.

To inspire participation means that our systems and processes are transparent, our quality of care and integrity are of the highest standard, our culture is progressive and our people feel valued. In a competitive and fast-moving world, we cannot assume anything. We must win the trust and loyalty of our people through consistent effort.

The actions specified herein focus on people, horses and the environment. Our social and environmental impacts are considered at least as important as the economic benefits. Ensuring the industry meets expectations with regard to the safety and care of our human and equine participants is highest priority. Demonstrating the current positive environmental impact and leading the industry to an even better place in our collective efforts towards meeting our climate-change responsibilities – this will occupy much of the next five years.

We know that inspiring participation will only happen with the full knowledge of our customers' expectations and that we are measured according to how we deliver on these expectations. We remain committed to a move towards a greater proportion of all-weather racing as it aligns us with the international racing world. This enhances our trading opportunities. We will deliver a campus dedicated to and focusing on the needs of people employed in the industry, enhancing the attraction and retention of an ambitious workforce. We will strengthen our international links ensuring Ireland remains top of the list for overseas investors. We will ensure that the horses have the best possible health status with a well-resourced Irish Equine Centre a key component of that strategy.

We will inspire through excellence and we will continue to deliver on the investment in the industry, benefiting the local economy and our industry participants in every county and ultimately celebrating an Irish success story.

STRATEGY DEVELOPMENT PROCESS

Horse Racing Ireland's Strategic Plan 2024-2028 sets out a clear vision for the horse racing and breeding industry, providing a framework for delivering on our key goals underpinned by HRI's core values. The plan sets out what HRI will do and how the organisation will deliver on strong growth plans for the industry.

The development of this document commenced with a SWOT analysis which highlighted the unique circumstances facing the industry, operating as it does within a competitive national and international environment with social, demographic, economic and technological challenges to be addressed. Following on from this analysis, a series of stakeholder engagements were conducted via questionnaires as well as an industry-wide survey, which captured critical themes and issues requiring consideration. This broad collaboration within and external to the organisation enabled HRI to develop its high level goals, priorities, actions and outcomes, and ultimately to produce the final strategic framework.

HRI's vision - "Nurturing Success, Inspiring Participation" - coupled with our mission - "To Protect, Strengthen and Sustain our Global Leading Industry" - will be delivered through HRI allocating its resources to its three major goals. Those goals and priorities are called out in the strategic framework. HRI will need to respond to unforeseen circumstances and so while the five-year goals will be essential in supporting the vision, we need to be agile enough to respond to change. HRI's strategic plan will be supported by a detailed implementation plan which will ensure the organisation is focused on those key priorities. In addition, those priorities will be regularly monitored and the outcomes measured during its life cycle.

I am extremely grateful to colleagues and stakeholders who have participated in HRI's strategy development process, and in particular I would like to acknowledge the work of the internal strategy team who led the process. This collaborative process has resulted in a plan developed by and for us all, determining our future ambitions to protect, strengthen and sustain our global leading industry.

IRISH HORSE RACING DELIVERS FOR IRELAND

Research carried out in 2023 by Deloitte, leading advisors to the sports business market, for Horse Racing Ireland (HRI) showed sustained growth across multiple measures for Ireland's thoroughbred horse racing sector.

The sector, including breeding, training, racing, and ancillary activities, delivered €2.46bn to the economy in direct and stimulated expenditure in 2022, up 34% from 2016, and supports a total of 30,350 jobs, an increase of 1,450 in that same period.

Deloitte also estimated that the racing and breeding industry in Ireland generates in excess of €550m of Foreign Direct Investment (FDI) each year.

With the breeding sector generating revenues of €819m, €264m spent by owners in training and running their horses, and €193m through racegoer spending both on and off course, the sector is providing economic stimulus across the country. Testimony to Ireland's outstanding reputation as a location for breeding and racing is the country's position as the second largest territory by value for global public bloodstock sales (€538m).

The attraction of horse racing is also evidenced by attendances at racecourses around the country. Looking at festival attendance in isolation, the top attended festivals attracted a combined attendance figure of over half a million people.

The HRI Sustainability Strategy 2024 'Racing towards a better world' aims to drive and support the Irish breeding and racing industry in becoming a recognised leader in sustainability.

The strategy identifies the role HRI will play in delivering sustainability change across the organisation, while also providing guidance and support to the wider industry. It sets out a clear approach and roadmap for delivery, embracing Ireland's Climate Action Plan and benchmarked against the United Nation's Sustainable Development Goals.

HRI will invest time and resources in establishing strong sustainability foundations within our organisation, building on current good practice to further develop and adopt industry standards, policies and practices to deliver on our stakeholder expectations. This is just the starting point of our sustainability journey, providing the platform for us to measure and report our progress, in detail, in future years.

RÉAMHFHOICAL

Aithníonn dreapadóirí sléibhe go bhfuil an áit is neamhbhuaine gar don mhullach. Tá Éire i measc cheannairí domhanda na rásáiochta capall, agus í ar an dara táirgeoir is mó de mhórphórtha ar domhan (de réir luacha, nach bhfuil ach na SA ag dul tharstu). Is toradh díreach é seo ar thacaíocht an Rialtais le blianta fada a d'imir do chumas agus d'oiriúnacht an oileáin seo gan amhras maidir le táirgeadh capall.

Le fada an lá, léirigh Rásáiocht Capall Éireann (HRI) an aeráid agus ithreacha mar thosca i rath na hÉireann, le scileanna ár ndaoine á gceiliúradh ar fud an domhain. Ní rátháitear aon cheann de na tosca sin, agus is léir an t-athrú aeráide i gcónaí, agus tá méadú ag teacht ar an uirbiú agus ar na roghanna stíle maireachtála a bhíonn ag athrú i gcónaí. Mar is amhlaidh leis na dreapadóirí sléibhe, tá gá le forairdeall mó, is féidir cumarsáid gan débhriú agus iarracht chomhbheartaithe nó dul chun cinn a aisiompú go tapa.

Léiríonn an doiciméad seo an uaillmhian atá ag HRI maidir le forbairt leanúnach an tionscail, tionscal a gheann an cúigíú heaspórtáil talmhaíochta is mó in Éirinn. Léirigh nuashonrú ar thuarascáil Deloitte in 2023 go raibh an tionscal tar éis dul i ngleic le blianta suaiteacha Covid agus gur tháinig sé chun cinn níos mó, níos luachmhaire (€2.46 billiún i dtionchar eacnamaíoch, ardú €550m ó 2017) agus níos mó béime ná riagh ar ár bhfreagracht shóisialta dár ndaoine, dár gcapaill agus dár gcomhshaol.

Is mór againn an mhuinín a chuir muintir na hÉireann as HRI, trína n-ionadaithe poiblí. Tá sé ríthábhachtach go roinntidh ár dtionscal go mbeidh toradh 35 oiread ar ghníomhaíocht eacnamaíoch mar thoradh ar infheistíocht bhliantúil an Stáit. Tá sé i gceist ag HRI leanúint den toradh seo ar infheistíocht Rialtais a sheachadadh trí thionchar eacnamaíoch an tionscail a mhéadú go €3 bhilliún faoi 2028.

Sonraítear sa phlean seo dhá chuspóir – chun Rath a Chothú agus Rannpháirtíocht a Spreagadh. Deir sé seo an chéad cáilíochta, agus déantar cáilíocht an táirge a tháistíl gach lá ar na ráschúrsaí agus sna Crónna Díolacháin. Tá an caighdeán gan amhras agus mar thoradh ar iarrachtaí ár lucht saothair tiomnaithe, le beagnach 10,000 duine páirteach i gcúram laethúil na gcapall, agus níos mó ná 30,000 post díreach nó indíreach a fháil.

Chun rannpháirtíocht a spreagadh, ciallaíonn sé go bhfuil ár gcórais agus ár bpróisis tréadhearach, go bhfuil cáilíocht ár gcúram agus ár n-ionracas ar an gcaighdeán is airde, go bhfuil ár gcultúr forásach agus go mbraitheann ár ndaoine go bhfuil meas orthu. I saol iomaíoch agus tapaidh, ní féidir linn glacadh le rud ar bith. Ní mór dúinn muinín agus dílseacht ár ndaoine a bhuanach trí iarracht leanúnach.

Díríonn na gníomhartha atá sonraithe anseo ar dhaoine, ar chapaill agus ar an gcomhshaol. Meastar go bhfuil ár dtionchar sóisialta agus comhshaol chomh tábhachtach céanna ar a laghad leis na tairbhí eacnamaíocha. Is príomhthosaíocht é a chinntí go gcomhlíonann an tionscal ionchais maidir le sábháilteacht agus cúram ár rannpháirtithe daonna agus eachaí. An tionchar dearfach ar an gcomhshaol atá ann faoi láthair a léiriú agus áit níos fearr fós a thabhairt don tionscal inár n-iarrachtaí comhchoiteanna chun ár bhfreagrachtaí maidir leis an athrú aeráide a chomhlíonadh – beidh sé sin go leor de na cúig bliana amach romhaínn.

Tá a fhios againn nach mbeidh rannpháirtíocht spreagúil ann ach amháin le heolas iomlán ar ionchais ár gcuistaiméirí agus go dtomhaistear muid de réir conas a chuirimid na hionchais seo i gcrích. Táimid tiomanta i gcónaí d'aistriú i dtreo cion níos mó de rásáiocht uile-aimsire mar a ailíníonn sé dúinn leis an domhan rásáiochta idirnáisiúnta. Cuireann sé seo lenár ndeiseanna trádála. Cuirfidim campas ar fáil a dhíréoidh ar riachtanais na ndaoine atá fostaithe sa tionscal, agus a dhíréoidh ar riachtanais na ndaoine sin, rud a chuirfidh feabhas ar fhórsa saothair uaillmhianach a mhealladh agus a choinneáil. Neartóimid ár naísc idirnáisiúnta lena chinntí go bhfanfaidh Éire ar bharr liosta na n-infheisteoirí thar lear. Cinnteoimid go mbeidh an stádas sláinte is fearr is féidir ag na capaill agus go mbeidh lonad Eachaí na hÉireann, a bhfuil acmhainní maithe acu, ina chuid lárnach den straitéis sin.

Beimid ag spreagadh trí shármhaitheas agus leanfaimid orainn ag seachadadh na hinfheistíochta sa tionscal, ag dul chun tairbhe don gheilleagar áitiúil agus dár rannpháirtithe tionscail i ngach contae agus ar deireadh ag ceiliúradh scéal rathúil na hÉireann.

Nicky Hartery Cathaoirleach, Rásáiocht Capall Éireann

STRAITÉIS PRÓISEAS FORBARTHA

Leagtar amach i bPlean Straitéiseach na hÉireann maidir le Rásáiocht Capall 2024-2028 fíos shoiléir do thionscal na rásáiochta capall agus an phóraithe, lena gcuirtear creat ar fáil chun ár bpriomhspriocanna a bhaint amach agus bunluachanna HRI mar bhonn agus mar thaca acu. Leagtar amach sa phlean an méid a dhéanfaidh an eagraíocht agus conas a chuirfidh an eagraíocht pleananna láidre fáis ar fáil don tionscal.

Cuireadh túis le forbairt an doiciméid seo le hanailís LLDB a tharraing aird ar na cúinsí uathúla atá os comhair an tionscail, ag feidhmiú mar a dhéanann sé laistigh de thimpeallacht iomaíoch náisiúnta agus idirnáisiúnta ina bhfuil dúshláin shóisialta, dhéimeagrafacha, eacnamaíocha agus theicneolaíocha le réiteach. Tar éis na hanailíse sin, rinneadh sraith rannpháirtiochtáil páirtithe leasmhara trí cheistneoirí chomh maith le suirbhé ar fud an tionscail, inar léiríodh téamaí criticiúla agus saincheisteanna ar gá iad a bheith i gceist. Chuir an comhoibriú leathan sin laistigh agus lasmuigh den eagraíocht ar chumas HRI a spriocanna, tosaíochtaí gníomhartha agus toortháil ardleibhéal a fhobairt, agus ar deireadh thiar ancreat straitéiseach deiridh a tháirgeadh.

Soláthrófar fíos HRI - "Rathúlacht a Chothú, Rannpháirtíocht a Spreagadh" - mar aon lenár misean - "Ár dtionscal Ceannaireachta Domhanda a Chosaint, a Neartú agus a Chothú" - trína acmhainní a leithdháileadh ar na trí phríomhspríoc atá aige. Tá na spriocanna agus na tosaíochtaí sin leagtha amach sa chreat straitéiseach. Beidh ar HRI freagairt d'imthosca gan choinne agus mar sin cé go mbeidh na spriocanna cúig bliana riachtanach chun tacú leis an bhfís, ní mór duinn a bheith sách solúbtha chun freagairt don athrú. Tacófar le plean straitéiseach HRI trí phlean miúsonraithe cur chun feidhme a chinnteoidh go mbeidh an eagraíocht dírithe ar na príomhthosaíochtaí sin. Ina theannta sin, déanfar faireachán rialta ar na tosaíochtaí sin agus déanfar na toortháil a thomhas le linn a saolré.

Táim fíorbuíoch do chomhghleacaithe agus do pháirtithe leasmhara a ghlaic páirt i bpróiseas forbartha straitéise HRI, agus go háirithe ba mhaith liom aitheantas a thabhairt d'obair na foirne straitéisí inmheánacha a bhí i gceannas ar an bpróiseas. Is é an toradh a bhí ar an bpróiseas comhoibríoch sin plean a d'fhobair muid go léir agus a d'fhobair muid go léir, lena gcinntear ár n-uaillmhianta amach anseo chun ár dtionscal ceannródaíoch domhanda a chosaint, a neartú agus a chothú.
